A YEAR HAS PASSED
and in that year a great many improvements have been made. Lenses, frames, binoculars are all more efficient.
Yet we have brought our prices down. Where we were charging \$30.00 for an average pair of glasses we now charge only \$22.00.
Furthermore there are substantial discounts in favour of certain professions and occupations. Come and see.

SPORT FIXTURES FOR WEEK-END

Highlanders To Make Soccer Debut

FOOTBALL, CRICKET AND HOCKEY

Hong Kong's sporting public will again be well catered for this afternoon with an excellent "variety programme," while tomorrow those who are fond of racing will be provided with their favourite pastime when the Fanning Races will be held.

So far as this afternoon's programme is concerned, there is football, cricket, lawn bowls and hockey and in each particular department some excellent games should be seen.

Great interest will be taken, by soccer enthusiasts, in the debut, in local football, of the Seaford Highlanders who have taken over the remaining fixtures of the East Lancs, and from advance reports the Highlanders should be able to give St. Joseph's a good run for their money, if not actually beat this team of "League surprises."

The hockey matches should attract a great deal of notice, especially in view of the fact that the Men's Interpart against Macao and the Ladies match with Shanghai are both due to come off shortly and both Selection Committees will no doubt be studying form.

Cricket

BY "LAW."

There will be altogether nine League cricket matches this afternoon, four in the First Division and five in the Junior section and especially in the case of the senior teams, some very good cricket should be seen.

Before dealing with the matches to-day, I wish to take this, my first opportunity, of bidding farewell to Frank Pereira, the Indian Recreation Club and Colony fast bowler, who will be leaving for Ceylon on the 26th inst. It is commonly known that Frank, as he is popularly known by all followers of cricket, had a breakdown in health some months ago and is making the trip to his home under medical orders, as it is felt that the climate in Ceylon will help him to recuperate. He may or may not be returning to the Colony, but whether he does or not the best wishes of the cricketing fraternity go with him for a pleasant voyage and a speedy recovery.

R.A.M.C. ASSCN. ANNUAL MEETING

Successful Year Reported

The annual general meeting of the R.A.M.C. Association, (Hong Kong branch), was held at the Urban Council Room yesterday.

The President Lt. Col. S. D. Reid, took the chair, with Serg. Maj. R. S. Powlesland, (Hon. Treasurer), and Serg. Maj. A. A. Barton, (Hon. Secretary), assisting.

From the report of the Hon. Treasurer, it was learned that the Association had in hand the sum of \$241.66, and that the year's working netted the profit of \$199.14. The income was \$1,435.75, with an expenditure of \$1,236.61 for the year.

The Hon. Secretary said that the social functions, including dances, dinners, whist drives and tombolas were very successful. The Association had wanted to make it a live body and he added that had certainly done so during the past year.

They were looking forward to more functions, such as cricket and badminton, and swimming in the summer to be arranged for members.

The following officers were elected: Hon. Secretary, Serg. Maj. A. A. Barton (re-elected), and the committee to be composed of: Dr. D. J. Valentine, Sgt. Maj. R. S. Powlesland, Staff-Serg. Bridges, Pte. Stanton, the Messrs. W. H. Colledge, Skinner and L. Hume. After branch business was discussed the meeting was adjourned.

TAIKOO CLUB BALL GREAT SUCCESS

BRILLIANT SPREAD OF DECORATIONS Large Attendance

The annual ball of the Taikoo Recreation Club, held in the Club-house last night, was a brilliant success. There was a very large attendance and everyone had their full measure of enjoyment. In the opinion of the majority of those present, the function was one of the most successful held in the Colony for some time.

The untiring efforts of the respective committees, who made the arrangements and did all that was possible in their spheres to make the dance one that would be long remembered by all who attended, met with well-merited reward.

The hall of the Taikoo Club was transformed from its usual everyday setting into a veritable fairyland of multi-coloured lights. In fact there were lights everywhere and the scene presented was beautiful.

Balloons, festoons, streamers and lights were there in abundance. Every window was neatly decorated as were also the spaces in-between. The ceiling was practically hidden by the intricate interweaving of streamers of all hues forming a fascinating pattern. Each window also contained a flowered cone bearing the initials of the Taikoo Club and were most effective.

DIOCESAN GIRLS' SCHOOL

ANNUAL SPEECH DAY

Lady Caldecott Gives Away Awards

The hall of the Diocesan Girls' School was filled to capacity with parents and friends yesterday afternoon on the occasion of the Annual speech day when Lady Caldecott, wife of His Excellency the Governor, distributed the prizes.

Miss H. D. Sawyer (Headmistress) presided and among those present were the Rt. Rev. Bishop Hall, Rev. J. R. Higgs, Prof. L. Forster, Mrs. T. H. King, Mr. E. J. Edwards, and Mr. S. M. Churn.

The proceedings commenced with a prayer led by Rev. Mr. Higgs, after which the headmistress read the school report. The school hymn was also sung.

After the prizes had been distributed Bishop Hall in a brief speech thanked the committee for carrying on the work during the absence on leave of Miss Sawyer. He also thanked Lady Caldecott for her kindness in giving away the prizes.

Lady Caldecott was a recipient of a lovely bouquet of flowers. A pleasing programme of entertainment was provided by the pupils of the school.

SHANGHAI ARMED ROBBERS

Over \$10,000 In Two Raids

Two robberies, in which one safe was carried away and another opened by chopper, were reported to the Shanghai Settlement Police late last Saturday night. The total loss to the victims was estimated at over \$10,000.

The first robbery was at 2 p.m., when five men entered No. 2, Lane 171, off Tongshan Road on the pretext of inspecting the telephone apparatus. Once in the house, three of them produced pistols and ordered the occupants, including 6 maid servants, to gather at one corner. For two hours the gang ransacked the place. Not satisfied with what they had found, the members forced open a small safe with a chopper. The gang finally left with \$9,400 worth of valuables and cash.

PISTOLS AND HAMMERS

At 6.30 p.m., a second robbery was reported at No. 33 Ning An alleyway, off Haining Road, occupied by several Chinese printing offices. Altogether six men entered the place, four being armed with pistols, and the remaining two, hammers. Having forced about twenty occupants into a small room on the top floor, the gang made a systematic search for cash. Meanwhile, the gang summoned a hired car to the place, and when it arrived, the chauffeur was compelled to join the imprisoned occupants. The robbers escaped in the taxi with a safe containing about \$1,000 cash. The taxi was later found abandoned in Gordon Road.

THE DORADO

The R.M.A. Dorado left Hong Kong for Penang yesterday with one passenger, Mr. G. Varaschini, and 17,800 kilos of freight. She also carried 120,302 kilos of mail.

HEALTH RETURNS

One case of small-pox, one of diphtheria and two of scarlet fever were reported to the Health Authorities for the 24 hours ended on Thursday.

EUCCHARISTIC CONGRESS

Church Dignitaries To Attend

The programme for the International Eucharistic Congress, which is to be held over the period of five days in Manila, is being given the final touches by the committees in charge.

Of interest to local Portuguese residents is the news that the Most Rev. Jose da Costa Nunes, bishop of Macao, will preside over the session of the Portuguese delegation which is to be held in the San Beda College.

Over seventy archbishops, bishops, prefects and vicars apostolic will attend the congress, according to the latest data. Amongst those who only recently signified their intentions to be present during the celebrations are: Rt. Rev. Gerald Doyle, prefect apostolic of Lihui Cha, China; Mons. Andrew, representing the Bishop of Monaco; Rev. So. Colla, of Rhussal, India; Rev. Rud. Rahmann, S.V.D., rector of Peking University; Rev. A. Turotte, of Hong Kong; Rev. Fidelis Griffin and Professor Slevert, representing the Bishop of Munster, Germany; Revs. Eugen Fritter and Albert Stehlin, of Freiburg, Germany.

Coming to the Congress as a special representative of the Most Rev. John H. Cantwell, archbishop of Los Angeles, is the vicar-general of the archdiocese, Rt. Rev. Mons. John Cawley.

Also among those scheduled to attend the celebrations is Rev. Juan Cosado, O.P., vicar-apostolic of Thai-Binh Tonkin, Indo-China.

HOSPITALS FOR POOR

Distressing Conditions In Hong Kong

"WHAT CAN WE DO ABOUT IT?"

BY "E. J. M."

Following up investigations into the work of anti-opium clinics in this Colony, the writer discovered that a most distressing state of affairs exist in some of the hospitals for poor in Hong Kong. Overcrowding and understaffing at these institutions have made conditions so deplorable that—if we are to be made to feel that we are really human beings—something must be done immediately to relieve the plight and sufferings of the unfortunates of this Colony.

The poor of Hong Kong must not only be pitied—they must be helped. In the name of humanity, what are these people? Slaves? Nay, they are even worse, for slaves have a master to care for them and feed them. The dead are better off than the living!

One particular hospital is providing accommodation for some 300 patients, of which only 11 are paying two dollars a day for the care and treatment they are receiving. In addition to this number, there is a daily stream of over 150 cases in the out-patients department, for all of which there is only a small "army" of four doctors and a handful of nurses.

In the free wards the writer found a large number of beds each holding two persons with a common blanket between them. There are even cases, when accommodation becomes so over-taxed that a place is provided for the patients on the hospital floors. Young and old, they cannot be turned away when they come for treatment. Conditions are such that only in the most extreme cases are they admitted into the hospital.

NO HOME TO GO TO

Not a few of those who become cured become a burden on the hands of the doctors who took pity on them and let them in. They have no home or relatives and, in charity, they cannot be discharged until some little provision is made for them outside, and as many remain an equal number are denied admittance into the wards.

In the babies' wards one sees the most pitiful of cases. These innocents have been brought along by their parents only when all hope of their living have faded. No wonder the rate of mortality here is so high—85 per cent of those admitted into this ward leave the hospital only for the mortuary. Even then, if those babies do not die, the majority of

KING'S CORONATION

New Commission Appointed

London, Jan. 15.

On the advice of his respective Governments, the King has approved the appointment of the Coronation Commission to consist of representatives of the United Kingdom, Canada, the Commonwealth of Australia, New Zealand and Union of South Africa which will meet in London for the purpose of considering the aspects of arrangements for the Coronation which are of common concern.

The new Commission has the same membership as the one which was announced last July by King Edward who nominated as his Chairman the Duke of York, now King George the Sixth.

The Duke of Gloucester has been appointed by the King to be the Chairman of the new Commission on which the Prime Ministers and other Ministers as well as the High Commissioners in London of the Dominions represented will serve.—*British Wireless.*

EMBROIDERY WORK
The Principal of the Royal School of Needlework, Lady Smith Dorrien, has chosen 35 needlewomen for Coronation work which will be carried out at the school during the next three months. They will be engaged mainly on fine embroidery work for a canopy to be held over the King and Queen as well as on the King's robe and probably on the Queen's dress and train.—*British Wireless.*

MINING IN ENGLAND

Sixteenth Century Statistics

The sixteenth and seventeenth centuries were periods of great metal mining activity in the mountainous regions of Southern Germany; it is perhaps because this early work appears generally to have been carried out in hilly districts that the German word for mine, "Bergwerk," still associates the art of mining with mountains. The well-known book, "De re metallica libri XII," by Georgius Agricola, gives a remarkable picture of the high state of technical development of German mining at the time, and a series of illustrations from this work were utilised by Dr. Ing. F. Hassler, at a meeting of the Engineers' German Circle, at the Institution of Mechanical Engineers, to from an introduction to a much less well-known record of early mining.

GERMAN LABOUR

This concerns a Royal mining company which was formed in England in 1584 to work deposits in the Lake District. Prominent members of the Government of that time, such as Lord Burghley and the Earl of Leicester, had financial interests in the undertaking. In view of the advanced state of German mining, the actual work was undertaken by an Augsburg trading company, "Eug. Langnauer und Mitverwandte," which opened out and worked a number of mines in Cumberland, employing German plant and German workmen. The German company operated for a number of years, but ultimately failed, although the work was carried on for a considerable time after this by English interests.

After the failure, the records of the company were sent to Augsburg and are still preserved in the civic archives of that town. Dr. Hassler has made a special study of them and in the course of his lecture gave many interesting particulars of the operations of the company. The route between Augsburg and Keswick, where the headquarters of the mines were situated, at that time was by way of Antwerp, Dover and Gravesend, and it appears that a dispatch sent from one place to the other occupied about six weeks on the

IRON AND STEEL INDUSTRY

Report From The Tees

Imports of iron and steel to the Middlesbrough area last month from foreign ports and coastwise totalled 1,887 tons, of which 328 tons were pig-iron, 1,001 tons crude sheet bars, blooms, slabs and 558 tons plates, bars, angles, rails, sheets and joists. Aggregate unloadings in the previous month reached 3,180 tons comprising 240 tons of pig-iron, 2,511 tons of crude sheet bars, etc., and 429 tons of plates, bars, angles, etc., and imports the same period a year ago amounted to 2,493 tons, 182 tons being pig-iron, 1,995 tons crude sheet bars, etc., and 315 tons plates, bars, angles, etc.

Shipments of iron and steel from Middlesbrough and sub ports totalled 46,255 tons, compared with 50,820 tons in the previous month. Among last month's loadings was a cargo of 481 tons of steel for Brazil. Shipments from the Tees to Brazil have not been made for many years. Of the 6,906 tons of pig-iron cleared, 2,892 tons went coastwise and 4,014 tons went abroad; of the 2,512 tons of manufactured iron loaded, 926 tons went coastwise and 1,586 tons overseas; and of the 38,807 tons of steel shipped 18,632 tons went coastwise and 18,775 tons overseas. Scotland was, as usual, the largest buyer of pig-iron taking 2,617 tons; while Denmark accepted 1,395 tons and Australia, 1,300 tons. Once again the Union of South Africa was the largest purchaser of manufactured iron, receiving 478 tons, the Straits being second with 465. Among the principal customers for steel were: the Union of South Africa, 3,525 tons; Denmark, 2,859 tons; India, 2,651 tons; the Straits, 2,515 and Russia, 1,238 tons.

MULTI-ENGINED CRAFT

WORK OF AIR-FRANCE

A number of large-capacity aircraft are at present under construction for Messrs. Air-France, Paris. All are multi-engined craft in which Hispano-Suiza engines predominate, and among them are three flying boats, namely, a four-engined Loire-Olivier No. 47 machine, a four-engined Loire-Nieuport No. 102 machine and a new flying boat of the six-engined Latécoere "Lieutenant de Vaisseau Paris" type, which carries 30 passengers.

Powerful Machines

All three are destined for trans-oceanic travel, the first two for the South Atlantic and the last for the North Atlantic. Fleets of powerful machines under construction for regular use on Air-France routes, comprise Farman four-engined 40-seaters and Dewoitine three-engined No. 338 machines accommodating 22 passengers. All these aircraft are driven by Hispano engines, with the exception of one of the Farman, which is fitted experimentally with four Gnome K. 14-type engines. The others are furnished with 690-h.p. Hispano liquid-cooled engines, while the Dewoitine has three 575-h.p. air-cooled Hispano engines.

LECTURES ON OIL ENGINES

A course of six special public lectures on "Injection and Combustion in Oil Engines" will be delivered shortly in the Department of Mechanical Engineering of the University of London, King's College, Strand, W.C.2, by Dr. S. J. Davies. The lectures will deal with utilisation of air, injection, ignition and combustion, properties of fuels, designs of combustion chambers, performance, and trend of development.

Journey. All the records of the company are compiled in German and even the paper on which they are written was supplied from Augsburg. Mr. H. W. Dickinson, who spoke in the discussion following the lecture, stated that traces of these early mines were still to be seen in the Lake District.

THE MILWAUKEE ROAD

PAGE FOR THE CHURCHES

STUDDERT KENNEDY
A Tribute And A Memory

BY "SCRUTATOR"

Every available seat in the Church was occupied. A crowd outside had been refused admission: In Britain even the Church of Jesus Christ must conform to the dictates of the Board of Trade. The subdued whispering of the large congregation rose up into the air and seemed to hang like a cloud under the vaulted roof until the Organist commenced the Opening Voluntary.

Immediately the cloud was dispelled and a rarefied atmosphere became sensible to at least one member of the congregation, Ian MacEwen. The Minister, in his robes of office, entered, followed by Studdert Kennedy who was wearing a dark lounge suit and a clerical collar.

It was almost a year since Ian MacEwen had been in Church. He felt himself alien to the congregation. When they had sung the first hymn he bowed his head along with the others while the Minister prayed. Ian did not hear a word of what was said. The sensation of hearing someone praying in public was strange to him; he even wondered if it wasn't actually indecent. He became uncomfortable sitting on the hard pews and moving to adjust himself he knocked a Bible from the book-board on to the floor. Still the Minister prayed. MacEwen raised his head and glanced around. A girl, two seats in front on his right, was doing the same thing. Their glances met, held each other for three seconds, understood, and parted. The girl's eyes were grey. MacEwen felt that she was as out of place in the Church as he was himself. Would the prayer never end?

"Cleanse Our Hearts"

"Cleanse our hearts and inspire us to love Thee. Enlighten our minds that we may behold Thee." Ian caught the two sentences as they fell from the lips of the praying man. They sounded like instructions. Would God hear and obey them? His mind trembled as he gazed upon the face of the man who dared to instruct the Deity, but the daffodils on the Holy Table steadied him when he looked at them. They were serene, beautiful. They had no part in all the living agony of seeking and praying. They seemed only to watch and smile—to be. "Consider the lilies!" Ian looked at the girl again. What had brought her there? Surely it was hypocritical for them to be bowed thus. The prayer ended. The choir chanted the Amen. There was a general shuffling and coughing all over the building as the congregation sat up in their seats again. The Minister's face wore a well-pleased expression: he had made a fine job of that prayer. It was fine to have a good memory for phrases, they helped such a lot! If only people were allowed to applaud in Church—he was sure he would have received an encore. Or so he looked.

Woodbine Willie

The prayer was followed by a reading from the New Testament and a second hymn. During the singing, Woodbine Willie, as hundreds of men had known him during the Great War, entered the pulpit. He did not appear tall for he was broad across the shoulders and the pulpit was high. The lights in the body of the Church were lowered but that above the preacher shone full. Kennedy's face was strong, and his eyes gave it an intense and bright earnest appearance. He began to speak. Ian listened attentively.

SCOUTS' CHURCH
PARADE

The annual church parade of the 1st Kowloon (St. Andrew's) Group, of the Boy Scouts Association, will be held to-morrow morning at 11 o'clock at the St. Andrew's Church. Cubs, Scouts and Rovers will take part in this event.

"Some Greeks came to see Jesus. That is all the Bible tells us about them. No one can say that they ever saw Him. Thousands were brought to Him then and thousands are brought to Him to-day who never see Him." Ian halted in his listening. The preacher's voice was gentle but penetrating. What was he going to make of these Greeks?

"You see, there's no good in just coming to look at Him. If you do that, all that you will see is a preacher, a teacher, another philosopher, and the world is full of them. The world is full of clever talk about life. But you must die before you can see this Man—yet to see Him is to live!"

"All you people who lay so much stress upon your lives, you're not living at all, you'll never see Him! You're only putting off death!" This thought struck Ian MacEwen's mind. He forgot where he was. "If you would have the truth happen to you, must be brave enough to be sceptical of all your most sacred beliefs; you must give up all your illusions, all your idols; must surrender your very reason to Him, otherwise, it's no good! You must die to see Him. That is the terrible truth of His divinity!"

Tremendous Sincerity
The preacher's sincerity was tremendous, his earnestness, overbearing. He had mastered and won his hearers. He held them in his hands. Ian was listening with his whole being, as words of terrible power poured into his mind. Gradually a light broke in his darkness. Jesus Christ seemed to offer the way into life which he had been seeking—but you had to die first, whatever that meant. "He is the God of unbearable beauty who breaks the hearts of men, but after that there is resurrection and life."

The sermon concluded and Kennedy prayed. If Ian heard little of the Minister's prayer, he heard even less of the one now being uttered. He was strangely elated but still perplexed. A living stillness filled the Church, mantling the hush of prayer in a vaster silence, pleading with dumb urgency for a plenitude of surrender.

"And though Thou batter us with undesired blows, cast us down naked and neglected, or bid us climb the difficult steep of some laborious, purgatory, still will we trust Thee O God, until at length, brain-racked, and it may be with our reason reeling, we shall hear the voice of Thy Love and enter into Thy greater service. So let it be with everyone of us for the sake of our Lord and Master, Jesus Christ, Amen."

The service ended and the congregation left the Church. Outside, people stood in little groups discussing the sermon, but MacEwen was in mood to hold converse with no one. There are moments when men are afraid even to think.

CHRISTIAN
FELLOWSHIP
MEETINGAddress On Royal
Empire Society

Members of the Helena May's Christian Fellowship listened with much interest to a talk on the Royal Empire Society given by Lt. Colonel S. P. Williams, C. I. E., travelling secretary of the Royal Empire Society of Northumberland Avenue, London, W. C. 2, at the Helena May Institute yesterday morning.
The speaker particularly emphasised that the Society was of great benefit to husbands and wives in that they can secure accommodation in the headquarters of the Society in London though it was necessary for them to be Fellows of the Society.
Tea was served after the address.

CHRISTIAN SCIENCE
LESSON SERMONFirst Church Of Christ,
Scientist, Hong Kong

The subject of the Lesson Sermon in all churches of Christ, Scientist, to-morrow, January 17, will be: "Life."
The Golden Text will be: "The Lord is the portion of mine inheritance and of my cup: thou maintainest my lot. . . Thou wilt shew me the path of life." (Psalms 18: 5, 11).
Among others, the following citations from the Bible will be read: "Then answered the Jews and said unto him, What sign shewest thou unto us, seeing that thou dost these things? Jesus answered and said unto them, Destroy this temple, and in three days I will raise it up. Then said the Jews, Forty and six years was this temple in building, and wilt thou rear it up in three days? But he spake of the temple of his body. . . When therefore he was risen from the dead, his disciples remembered that he had said this unto them; and they believed the scriptures, and the word which Jesus had said. And this is the record that God hath given to us eternal life, and this life is in his Son. If ye then be risen with Christ, seek those things which are above, where Christ sitteth on the right hand of God. When Christ, who is our life, shall appear, then shall ye also appear with him in glory." (John 2:18-22, 1 John 5:11, Col. 3:1,4).
The Lesson Sermon will also include the following passages from the Christian Science Textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "That Life is God, Jesus proved by his resurrection after the crucifixion in strict accordance with his scientific statement: 'Destroy this temple (body), and in three days I (Spirit) will raise it up.' It is as if he had said: 'The I—the Life, substance, and intelligence—of the universe—is not in matter to be destroyed. Jesus could give his temporal life into his enemies' hands; but when his earth mission was accomplished, his spiritual life, indestructible and eternal, was found forever the same. He knew that matter had no life and that real life is God; therefore he could no more be separated from his spiritual life than God could be extinguished. Our Master fully and finally demonstrated divine Science in his victory over death and the grave. Jesus' deed was for the enlightenment of men and for the salvation of the whole world from sin, sickness and death. The understanding that life is God, Spirit, lengthens our days by strengthening our trust in the deathless reality of Life, its almightiness and immortality." (Pages 27, 51, 45, 487).

CATHOLIC NEWS
AND NOTESThe Meteorological
Congress

Among the meteorological experts at present in conference in Hong Kong are two Jesuit priests, Fr. Selga, Director of the Manila Observatory, and Fr. Gheral from the Observatory of Zi Ka Wei, Shanghai. Both these observatories were established by the Jesuits and they have contributed a good deal to the scientific study of weather conditions in the East. The Manila Observatory has functioned under three different governments, that of Spain, the United States and now under the Philippine National Government, and its services have received marked appreciation from each in turn. Fr. Selga is a Spaniard, Fr. Gheral, who has been associated with the Meteorological Station in Shanghai for many years, is an Italian, but most of his associates in the Observatory are French. The present head of the Shanghai Station, Fr. Lejay, passed through Hong Kong recently on his way back from a Scientific Congress which he attended in Oxford.

PAPAL REPRESENTATIVES
The presence in Hong Kong of the Apostolic Delegate to China, H.E. Archbishop Zanin, has led to many inquiries as to the functions of the Pope's representatives who are now found in over thirty countries in the world. Their functions are mainly diplomatic, and it is considered desirable to maintain these relations on account of the widespread extension of the Catholic Church throughout all parts of the world. Numbering over 330 millions, Catholics make up the most numerous single religious body in the world, and the Catholic Church's unity in doctrine and in loyalty to the spiritual authority of the Pope gives it a position of even greater importance than its numbers warrant. In addition to his diplomatic duties, the representative of the Pope naturally serves also as a link between the Holy See and the local authorities of the Catholic Church. His powers vary according to the position and circumstances of each country.

ST. VINCENT DE PAUL SOCIETY
A change has recently taken place in the presidency of the Central Council of the St. Vincent de Paul Society in the Colony, Mr. Henry Dixon being appointed to the position after the resignation of Mr. J. M. Noronha who has held the presidency for many years. The Society of St. Vincent de Paul is organised in "Conferences" or Committees. There are two in Hong Kong and two in Kowloon. Each of these has its own officials, and the members all visit the

IMMORTALITY

Theosophical Society
Lecture

"Man," said Mr. A. F. Knudsen last Thursday at the local Theosophical Society, Hong Kong Club Annex, "is not this physical body we see. That is merely an animal, and it is his vehicle for a lifetime. For Man, his true self, is a spark of God. This Spirit lives on through countless bodies, through incomprehensible ages, with a limitless destiny before it."
A capacity audience was listening to this, a lecture on "Immortality, in Theory and Practice" and Mr. Knudsen went on to say that all religions in the world subscribed in their particular way to the truth that Man was a body, soul and spirit. Reference to experiences of higher planes was rich in the esoteric literature of the world. And the procedure for disciplining oneself for such experiences still held, even in the now ancient writings of Buddha and Fatanjall.
What was the Theory of Immortality? The religions were full of references to Immortality made by the original Teachers. Was a spark of life suddenly created and then gifted with a vague immortality as the Christians, but not Christ, said? Was the soul of man imprisoned in the wheel of births and deaths, alternating between man and animal, as the Buddhists said?

The Proven STOMACH REMEDY for Bad Cases

Amazing evidence of the remarkable speed with which indigestion and stomach pain can be stopped has been revealed by medical experiments and X-ray photographs of actual cases. These prove the ingredients of "Bisurated" Magnesia to be the quickest-acting and most effective known to medical science. Within 5 minutes a teaspoonful of "Bisurated" Magnesia in a little water produced complete relief in cases where numerous other remedies had failed entirely.

Its Action Explained—

Simply take a teaspoonful of the powder in a little water. The moment this soothing draught reaches the tortured stomach it begins to soothe the nerves, liberating the blocked food. The system of the stomach becomes at hand and nothing is left to irritate the stomach. The pain quickly leaves and promptly disappears. By following up the treatment after each meal the tenderness and grow strong; and you can eat whatever you like and enjoy every meal, without fear of wind and pain.

A NOTED ENGLISH DOCTOR SAYS: "I find that 'Bisurated' Magnesia taken after my meals is the only thing that keeps me free from pain and discomfort, and I take it regularly. I often prescribe it for my patients, and have had very good results." H. G. — M.A., M.R.C.S., L.R.C.P.

ANOTHER DOCTOR SAYS:

"Bisurated" Magnesia gives excellent results and is the ideal remedy for stomach pains and acidity. It is particularly recommended for Dyspepsia, Gastritis, Stomach Pain, Flatulence, and even Stomach Ulcers." H. L. — Faculty of Medicine, Paris.

"ADVENTURE IN MANHATTAN"

Jean Arthur and Joel McCrea, as handsome a screen team as ever charmed an audience, romp gaily through the season's most diverting comedy-romance, "Adventure in Manhattan," opening to-day at the King's Theatre.

In the wake of her personal triumphs in "Mr. Deeds Goes to Town" and "The Ex-Mrs. Bradford," Jean Arthur once again displays her clever versatility as a dramatic actress and subtle comedienne.

Supporting Miss Arthur and McCrea are Reginald Owen, Herman Bing, Thomas Mitchell, Victor Killian, John Galloway and George Cooper.

"JUNGLE PRINCESS"

The love of a jungle-born maiden for a white man, the first she had ever seen, is the background of "The Jungle Princess," a thrill-packed Paramount picture which is showing at the Queen's and Alhambra Theatres to-day.

The stampede of a maddened elephant herd, a battle waged by manlike chimpanzees, and the charge of a tiger are some of the thrilling elements in "The Jungle Princess." Beautiful photography and splendid animal scenes make this breath-taking romance one of the finest pictures of its type to reach the screen.

The role of the jungle maiden is played by Dorothy Lamour, radio star, and the man is Ray Milland. She saves him from a man-eating tiger, takes him to her cave, and nurses him back to life. He learns to love her and she returns his love with all the passion of her primitive soul. But when she returns to civilization with him they are confronted by Molly Lamont, to whom Milland is betrothed and it is only in the face of a fear-crazed horde of natives intent upon slaying them that Milland makes his decision between the two.

Akim Tamiroff, Lynne Overman, and Mala all have important roles in "The Jungle Princess." This is Miss Lamour's first screen engagement, and it is a highly successful one for she is a brunette of exceptional beauty and charm, and plays the part of the jungle maiden to perfection.

CINEMA CROWDS DIARY OF LOCAL EVENTS

With Minds Aged 12 Years!

"All our education is turning out masses of people who are satisfied with the fare provided by the cinemas, who find pleasure in vulgarity, and know not the meaning of joy," declared Miss Agnes B. Muir, head mistress of Milton House, in her presidential address to the sixtieth annual congress of the Educational Institute of Scotland, held in Edinburgh last month.

Miss Muir found fault with the cinema, which, she said, was to an alarming extent presenting to the eyes of the masses of its patrons patterns of vulgarity, vice, and crime; the manners and morals of the under-world of Chicago; the glorification of crooks and gangsters; and to their ears a debased form of speech which was becoming common usage among the youth of our country.

Miss Muir quoted a cinema manager who had said to her that in his opinion the average mental age of his patrons did not exceed 12 years.

"I see the failure of Scottish more apparent and more serious in the spending of leisure," she added.

Nursery Schools Importance

"The teacher is a greater authority than the parent," Professor Edward P. Cathcart, Glasgow University, declared. "I sometimes wonder if teachers grasp fully the position of omniscience, of infallibility, which is thrust upon them."

After pointing out that, willy-nilly, time must be found for more intensive physical training and adjustments, Professor Cathcart said that section of the educational system which was most vital and important in relation to health was the nursery schools. They gave the teachers a change that was without rival of laying a foundation for real health in the future.

He believed it to be more probable, looking to the ultimate good of the people, that there would be a greater gain by lowering the school age to three, provided there were sufficient nursery schools, than by raising it to 16.

EYELID TINTING RISKS

Doctor's Warning To Women

The risk women run by the indiscriminate use of certain types of cosmetics for tinting their eyelids and lashes is pointed out by Dr. Henry C. Semon, physician to the dermatological departments at the Royal Northern, Hampstead, and King George hospitals.

Writing in the "Lancet," he says: "Tinting of the eyelids, apart from tinting of the lashes, is now adopted by increasing numbers of women in all ranks of society. It is being fostered by the manufacture of appropriately coloured pigments and dyes of varying composition and cost."

"There is nothing novel in the practice. 'Actresses are familiar with the stage effects afforded by judicious application of the right colour in the right place. So long as it was confined to the 'professional' and the demand was relatively small, little or nothing occurred to draw medical attention to the ill-effects which might ensue."

MATCHING THE COMPLEXION

Dr. Semon explains that at one time only one or two "shades" were procurable and the preparation was relatively harmless.

"The position now is different," he adds. "The beauty specialist, aided and stimulated by new methods in the production of fine chemicals, vies with the Parisian dressmaker in issuing his fashion edicts, and, as all smart women know, you can match your eyelids not only to your complexion—but to a changing factor—but to suit the varying demands of light and shade, boudoir and ballroom, night and day."

The chemist could provide only a limited range of colour from quite innocuous substances. This was where the mischief was born.

Dr. Semon cites cases of women suffering from eye trouble through using tints and adds that nothing will entirely obviate the risk of inflammation if uniline dyes continue to be employed in the manufacture of these tints.

"TOP HAT"

Spectacle adds its pictorial appeal to romance, comedy, melody and rhythm in "Top Hat," new RKO Radio musical starring Fred Astaire and Ginger Rogers. Dancing to the tunes of Irving Berlin, king of popular song writers, the co-stars reveal some sensational new terpsichorean creations against lavishly colourful backgrounds. Most spectacular of all the settings is a Venetian locale, embracing canals with gliding gondolas, bathing lagoons and graceful, arching bridges.

A huge mixed chorus of Hollywood's finest dancers also does an ensemble arrangement of the "Piccolino" feature dance of the picture, which is rich in spectacle. Astaire and Miss Rogers do an intricate, team routine of the "Piccolino."

The picture is the current attraction at the Majestic Theatre.

houses of the poor to whom they distribute relief. Each Conference has representatives on the General Council, which meets once a month. At each of these meetings a report is read from each of the Conferences, and thus there is a review each month of all the charitable work done by the Society. As each Conference attends to a special section of the city there is no overlapping, and the monthly pooling of information secures that deception by underserving applicants for help is reduced to a minimum. Certain expenses, such as education, are borne by the central body rather than the individual Conferences. A large number of children are either completely educated or helped in the expenses of their education by the Society. The Hon. Secretary for the coming year is Mr. Peter Lo, and the Hon. Treasurer Mr. A. A. Alves.

CATHOLIC ACTION CONGRESS IN CANTON
During the coming week there will be a Catholic Action Congress in Canton, beginning on Monday and closing on the following Sunday. As Catholic Action is a general name for works of zeal and charity carried on by lay Catholics with the approval of the Church authorities, the Congress will be very wide in its scope. Considerable help in organising this Congress has been given by Bishop Yu Pin, the Vicar Apostolic of Nanking who was the chief organiser of a very successful Congress of a similar kind in Shanghai two years ago. Bishop Yu Pin will reach Canton on Sunday next. A number of delegates from various parts of South China will be present, and many prominent laymen who have been associated with various Catholic activities will take part in the discussions.

CATHOLICS IN KWANGTUNG
Recently issued statistics show that the number of Catholics in the Kwangtung Province is 132,117, which is an increase of over 6,000 on the previous year. There are nine ecclesiastical divisions in the province, have in all 333 priests, of whom 113 are Chinese. There are under Catholic auspices throughout the province 491 schools with an aggregate of 28,341 pupils, and fifty medical dispensaries, in which 188,760 cases were treated within the past year.

LIFE AS A MINERAL

Man the spark of Life had long ago plunged into life as a mineral. His embryo consciousness then became the life behind a group of plants. After more inexpressible aeons his life was expressed an animal form. At last he took his first birth as man, as a savage. He gained his experiences through life after life. The Law of Absolute Justice in which Theosophists believed, rules that for all his trespasses against the progress of evolution he received exact retribution whether in his present life or a future one. Through his sufferings, through his fortunes, through his sorrows, through his ecstasies he learnt the lessons of Life. And so on he progressed until he once again reached the consciousness of the original Divine Spark and became Himself divine.

The practical reaction to the Theosophist's theory of Reincarnation, was to realize that all were Gods in the Becoming and that nothing was impossible for them. To realize that joy and ecstasy were the strongest accelerators to progress. That the struggle for life need not be so bitter, as there was so much to do more worth-while than breaking hearts in making millions.

One should be fearless and build constructively not only in the world in which one's body now lives; but one should remember that beyond the present life there is more, more beyond the solar system and the universe; and should build accordingly.

Mr. Knudsen is the Presidential Agent of the Theosophical Society in the Orient and is staying in Hong Kong for two weeks. He will be giving a lecture on "The Evolution of Mind and Morals in Daily Life" next Thursday.

PRISONER'S LEAP TO DEATH

Inquest At The Magistracy

At an inquest conducted by Mr. K. Keen sitting as Coroner at the Central Magistracy yesterday afternoon it was revealed that on the morning of December 1 last, a man, named Lo Tung, aged 22, detained for enquiries, leaped to his death from the first floor of Police Headquarters building.

Chief Det-Insp. J. Murphy was present on behalf of the police and the following jury was empanelled:—Messrs. H. H. SLYTH (Foreman), J. J. Guterres and Lo Pun Wal.

Dr. Isaac Newton, of the Government Civil Hospital, deposed that the cause of death was multiple injuries with haemorrhage as the contributing factor.

An Indian constable testified that on the night of November 30 he arrested Lo Tung outside a shop window in Ice House Street. He was unscrewing nails with a screw driver. He was taken to Central Police Station.

Wanted To Be Out

Det. Lau Fook, in evidence, said that he received the deceased at 8.20 a.m. on Dec. 1 in the sleeping quarters of the detective office. At 9 a.m. Sergt. Cashman arrived and at 11.30 a.m. witness was instructed to take Lo Tung out for further enquiries in consequence of a statement made by Lo Tung.

Witness took him to the prison, Western district and Western market but could not find the man they were looking for. They returned to Central at 1.05 p.m. but Sergt. Cashman was not there. Witness took Lo Tung back to the sleeping quarters where he handcuffed him to a bedstead. Witness sat opposite him. Deceased expressed a desire to go out again at 2.30 p.m. to look for the man, Ah Chan. At 1.50 p.m. the deceased expressed a desire to obey a call of nature and witness complied with his request. On the way back to the sleeping quarters Lo Tung asked the witness to wait under a pretext. Lo Tung suddenly swung his right hand with the handcuff and made a swing to strike witness.

As witness was trying to ward off the swinging blow Lo Tung turned and ran to the verandah. He put both hands on the railings and jumped over, landing in the compound. The injured man was rushed to the Government Civil Hospital where he died two days later.

Without retiring the jury returned a verdict of accidental death by misadventure.

LORRY DRIVERS IN COURT

Dangerous Driving Charges

A lorry driver, Tsang Lin, summoned before Mr. J. A. Fraser, at the Central Police Court yesterday for driving without due care and caution, was fined \$10.

Sergt. C. Mottram said that the defendant drove his lorry from west to east along Connaught Road Central near the Cheung Chau Ferry wharf at a fair speed and shot across the road to pull up off No. 117 instead of waiting for a break in the traffic. Another lorry coming from the east had to swerve sharply out to avoid it. It was very skilfully done but it was dangerous.

Tsui Shu, another lorry driver, was similarly summoned and fined \$5. Sergt. G. Fryer stated that the defendant turned into Arsenal Street from Johnston Road at 20 miles per hour.

A fine of \$5 was imposed on Wong Chun, also a lorry driver, who was summoned for speeding in Connaught Road West. His speed was 24 miles per hour. Sgt. A. Bethell prosecuted.

HEROIN PILL CASES

Wong Tak, 25, pleaded guilty to the possession of 462 heroin pills at 53, Main Street, and was sentenced to six months' hard labour by Mr. J. A. Fraser at the Central Police Court yesterday. Tang Ki, 48, charged with the possession of 1,080 heroin pills at 13, Kam Wah Street, was similarly sentenced. Inspector T. O'Connor prosecuted in both cases.

FATALITY AT QUARRY

Inquest. Verdict

Sitting as Coroner at the Kowloon Magistracy yesterday, Mr. E. Himsforth conducted an enquiry into the circumstances attending the death of Choi Tam Wah, 22, stonebreaker, who killed as the result of a blasting accident at a quarry in Tai Kok Tsui. His Worship sat without a jury.

Medical evidence was given by Dr. Y. K. Ng of the Kowloon Hospital which disclosed that the deceased sustained multiple injuries. Deceased was brought in to the hospital at 11.15 a.m. on December 26, and died at 8.05 p.m. on the same day.

Cheung Kul, mother of the deceased, told the Court that she was a short distance away from her son when the accident occurred. She heard the explosion, and on turning round she saw Choi lying on the ground unconscious.

The deceased, before he died, made a statement in which he said that the blame was entirely his own as the gunpowder he used for the blasting was illegally obtained from another stonebreaker. His Worship recorded a verdict of accidental death.

GAMBLING RAIDS

As a result of a Police raid on a common gaming house on Thursday, 14 participants were charged at the Kowloon Magistracy yesterday. Chan Hung, 24, coolie, the keeper, and seven others forfeited their balls when they failed to appear. The remaining five were each \$1 by Mr. E. Himsforth.

BAIL ESTREATED

Falling to appear at the Kowloon Magistracy yesterday in answer to a charge of keeping a common gaming house at 39, Halphong Road, Chan Chuen, 33, coolie, forfeited bail of \$50.

Eight other defendants, who were participants in the game, were each fined \$1.

The sum of \$2.65 which was found on the table was ordered to be placed in the Poor Box.

TAIKOO CLUB BALL GREAT SUCCESS

(Continued from Page 1.)

In the middle of the hall were two huge lamps; also the house flag of Messrs. Butterfield and Swire the whole being carried out in electric lights.

At the far end of the hall, where, on the right hand side, Art Carmelo and his Boys, of the Hong Kong Hotel, supplied the latest in dance rhythm, there appeared on the wall the sign, "1891-1937."

Below the coloured house flag a unique novelty in the form of a box was introduced. Numbers were flashed indicating the dances.

"PLEASANT VARIETY"

The dance programme provided pleasing variety and included fox trots, waltz, and the Military two-step. The always popular Paul Jones was also provided and a Scottish atmosphere was introduced by way of the eightsome reel and Highland Scottish both of which were thoroughly enjoyed.

From the end of the ninth dance, which was the eightsome reel, supper was served in an adjoining room which was also gaily decorated.

THE OFFICIALS

In connection with the committees responsible for the success of the dance special mention must be made of Mr. J. Polson, who had charge of the streamers decorations and Mr. S. Newman whose work with the coloured lights was well-nigh perfect.

The following were the officials:

President:—Mr. J.R. Masson.
Vice-Presidents:—Mr. K.E. Greig and Mr. A.R.H. Phillips.

Chairman:—Mr. S. J. Pollock.
Decorations:—Messrs. J. Polson, S. Newman, S. Pollock, T. Young and A.W. Norrie.

TAIKOO DOCKS MISHAP

Coolies Knocked Into Sea

Two workmen employed at the Kowloon Docks met their death under tragic circumstances on Thursday afternoon.

In a report to the Police at Shaikwan, Mr. G. Bird, of the Taitok Docks, stated that the workmen, Cheung Kiu and Tung Kwan, employed at the Kowloon Docks, were engaged in loading an iron plate weighing four tons from a crane at the Taitok Docks in to a Kowloon Docks lighter when the plate slipped and fell into the water.

At the same time, Cheung and Tung were also knocked into the harbour where both men disappeared and their bodies have not been recovered.

Another accident reported was to the effect that Ho Tak Wu, 48, foreman, of 113, Wuhu Street, was killed on Thursday morning when he fell into a drydock at Taitok. The body was removed to the Public Mortuary.

DRIVING ON A FOOTPATH

Sergeant Calls It "Laziness"

Pleading guilty through a letter, Mr. C. J. Tacchi of the P. W. D. Drainage Department was fined \$5 by Mr. Macfadyen at the Kowloon Police Court yesterday on a traffic summons.

Sgt. Alexander, prosecuting, said that on December 24, at 12:45 a.m. he saw defendant drive his car on the footpath alongside the Kowloon Post Office to post a letter. He described it as a sign of laziness.

WEDDING ANNOUNCEMENT

The forthcoming wedding is announced: Mr. Alfred Victor Alvarez, architect, of 6, Cameron Road, to Miss Maria Socorro Botelho, of 35, Granville Road, both of Kowloon.

SEAFORTH HIGHLANDERS OFFICERS' MESS

"Boy" Caught Stealing Silver Spoons

Convicted on a charge of stealing nine silver coffee spoons, a silver dessert spoon, and a silver dish handle from the Seaforth Highlanders Officers Mess, Murray Barracks, Pau Sing Ling, 24, mess boy, was sentenced to two months' hard labour by Mr. K. Keen at the Central Magistracy yesterday. Lt. R. Mackenzie, of the Seaforth, was present in Court.

Detective-Sergeant T. G. Mackay stated that the defendant had been employed as bar boy in the Officers' Mess for six months. The Seaforth Highlanders officers had been in residence in the Mess since January 7. On the night of January 12, before 11 p.m. Pte. C. Crow, employed as a waiter in the Mess, had gone downstairs and on his return he heard a noise in the silver room. He went in and the defendant was there. There was a cupboard in the room where the bar boys in the Mess kept their coats, and Pte. Crow looked in the cupboard and the defendant's coat was lying in a heap as though it had been thrown in. The defendant was asked to go and call one of the officers as it was closing time for the bar. Pte. Crow picked up the defendant's coat and found two spoons and the remainder of the spoons were also found in the coat pockets. Defendant was taken to the Guard Room and the police were sent for.

Sgt. Mackay mentioned that the property was valued at \$92.50. A fork and a knife were missing but there was no evidence to show that the defendant was responsible for this.

LAW EXPERT DIES

LOSS TO INDIAN SECTION

Mr. Kenworthy Brown

Indian law has lost one of its most distinguished exponents with the death in London of Mr. Kenworthy Brown, at the age of 77. He died following a heart seizure at the Athenaeum.

Until his retirement seven years ago Mr. Brown was Junior Counsel to the India Office, a post he had held for many years.

After being educated at Eton and Balliol College, Oxford, Mr. Brown originally intended to enter the Indian Civil Service. He passed the examination but was rejected on medical grounds. He then decided to enter law and was called to the bar by the Inner Temple in 1885.

LARGE MADRAS PRACTICE

Later, he went to Madras, where he built up a leading practice. In 1903, Mr. Brown returned to England where he soon had one of the largest junior practices in Indian appeals before the Judicial Committee.

During the early days of his career, he was appointed standing junior counsel to the India Office. This post he held until his retirement from practice about seven years ago.

A man of charming personality, he was a good linguist and a dry wit. His knowledge of Indian law was widely esteemed both in England and in India. The book on the Indian Transfer of Property Act he wrote in co-operation with Sir Horatio Shephard was a standard work.

BANISHEES GAOLED

Three banishees, Li Kwai, Tam Sik and Yan Chop, were each sent to prison for a year with hard labour by Mr. Fraser at the Central Police Court yesterday for a breach of the Deportation Ordinance.

BASIL SMITH BETTER

DIOCESAN GIRLS' SCHOOL

(Continued from Page 1.)

SCHOOL REPORT

The Headmistress in her report said:

The last prize giving was held in July 1935 and the reason why there was none in 1936 was that the Bishop was out of the Colony, the Secretary of the School was away and the Headmistress was also on leave. It follows then that this report cannot be as full as some you have heard in previous years, and I would also remind you that the certificates and prizes are those gained in 1935 and 1936. We have had several changes on the staff—Mrs. Ritchie accepted a position under the Education Department in September 1935 and we were fortunate in securing the services of Miss Joan Smith, who came out at very short notice arriving in the Colony in October. Miss Cox left us in the summer Mrs. Kirby joined the staff in September 1935. Both Miss Smith and Mrs. Kirby are fully trained Teachers, with previous experience—the former holds the Froebel Certificate and the latter the Government Teachers Certificate. Miss Steel, M. A. arrived on February 6, 1936 from home and has done loyal and tireless work from the day of her arrival. Miss Armstrong left in April and Miss Turbett went on leave and Mrs. Gibbons and Miss Marie Smith came to us the same month. Miss Turbett is back again with us and Miss Dalziel has left us in order to be married and make a home of her own.

Mr. Brown made his annual inspection in October and a report duly followed recognizing the work of the school.

EXAMINATIONS

1935 was the first year that the official school year began in September and we were somewhat divided in our opinion as to the most suitable time to hold the school examinations. For many years it has been the custom to hold two school examinations each year conducted in an orderly way, using the strict discipline of any outside examination. The first used to fall in the summer and the second generally co-incided with the Local University Exams. In 1935 we decided to hold the first exam. in January 1936 and the second in the summer, but having thus experimented we feel the better way is to hold the first half year in December and the second in either June or July, unless a further change be made in the official school year. In 1935 the highest number on the register was 312 and the lowest 299. In 1936 the highest number was 328 and the lowest 295. In December 1936 it was 328 and in January 1937 it is 339.

These figures show a good increase, and it means that the school is really too full, but it is very hard to send children away when one knows that other schools where they might attend are full too. More than once I have stressed the fact that this school holds a special position in the Colony—it was founded in 1866 (or about that date) for children of mixed parentage and a certain number of Chinese were eligible for admission provided they had a sufficient knowledge of English to benefit from the education given. Its full title was the Diocesan Girls' School and Orphanage, and though we have changed and have made progress I hope since 60 years we do still try to uphold some of our traditions. I do not ask a child if she is of mixed parentage or not—nor do I ask a child if she is English or European for the purpose of admitting her into the school—I feel that all from this point of view have an equal right to attend, and provided they can benefit from the education given all are accepted if we have accommodation.

We are, definitely a Church School and as such ready to help our poorer sisters, and are in no way a money-making concern. We are not an endowed school and our income is derived from three sources namely money paid as fees for tuition etc. money collected from the generosity of friends of this school and the Boys' School, and thirdly a Government Grant, and we receive \$240 per year from Mr. Woo Hay Tong's Scholarship fund and 25 a year from Miss Skipton.

CHARITY WORK

In good years the Government Grant comes to about \$10,000, and the amount of Charity work we do in reduced fees is generally speaking about half this amount—an adequate and well-qualified staff is needed in every school that is to do good work, and it is chiefly for financial reasons that we have so large a register. From these remarks it can be easily understood that we are attempting to give two entirely different types of education—one fitted to the needs of those girls intending to go on to some university for higher studies, and one fitted for those who wish to launch out into a business career and who cannot afford either the time or the fees for a University course. Now that the School Certificate is to be taken in Class 2 instead of Class 1 I feel the time has come when we should introduce a business course in the school, and that in the near future. In September, if possible, I hope to arrange for Short Hand, Typing and business correspondence to be available for those who need it. I hope it will mean that those girls who gain the school Certificate in Class 2 and who do not intend to Matriculate will come back for another year and take up this course. It will probably be open also to other girls who do not take the School Certificate, but who show attitude in another sphere of education.

I will close my remarks by saying that the past year has been full of the usual school activities, Hockey and Netball matches have been played—A Sports Day was held—visits paid to the Dairy Farm and the Flower Show, Mrs. Hoares Garden, the Empress of Britain. The children arranged a concert and from the proceeds were able to give \$100 to the lepers in Pakhoi, and by further efforts they raised \$107 for their Sports Funds, the guides have taken a new lease of life under their Captain Mrs. Barnes and I still hope to see the banner in its niche in the Hall before long! Mr. Edwards visited the school twice, once in February and once in November but no report has reached me yet.

I feel I want to pay an open tribute to Mr. Smith, the Committee, Miss Wentworth and the rest of the staff for their loyal support and devoted work during my absence, and I think I cannot do it in a better way than by following the example of our Governor on a recent occasion by saying thank you. Miss Wentworth and Staff "I thank you."

PRIZE WINNERS

The Sir Thomas Southern's Prize for Science:—Class 1, May Woo; Class 2, Audrey Ho.
Mr. Montague's Prize for French: Ruth Stone.
Mrs. R. D. Walker's Prize for Domestic Science: Cicely Kotewall.

Norman Brooks, the leading local exponent of the latest in swing and rhythm with his charming wife, who keeps patrons of the dance at the Hong Kong Hotel listening with her tantalizing voice.

WOMAN LET OFF

Lam Yung, married woman, of 60, Shanghai Street, was brought before Mr. Q. A. A. Macfadyen at the Kowloon Magistracy yesterday afternoon and charged with (a) possession of a forged Hong Kong and Shanghai Bank \$10 note and (b) uttering a forged banknote knowing it to be forged.

Detective Inspector Elston asked permission to withdraw the first charge, this being granted.

In the witness-box Lam told the Court that she was entirely innocent of the charge against her. She took the note from a till in her shop to buy a woollen sweater and on producing the note the folk accused her of the crime. After hearing the evidence His Worship held there was not evidence on which to convict and discharged the woman.

JAPANESE WOMAN FINED

A Japanese married woman, Tome Katoyama, aged 44, was fined \$10 by Mr. Fraser at the Central Magistracy yesterday for failing to register herself as an alien. Sgt. J. H. E. Edwards stated the defendant arrived here by the s.s. Tatsuta Maru on December 25. The shipping company had failed to send a passenger list with her name on and they would be summoned in due course. Defendant stated that she forgot to register owing to the Christmas and New Year holiday rush.

ESTATES

Letters of administration were given to Liu Fat Cheung, the son of Liu Ka Yuen, retired trader, who died on December 18, 1935, and who left an estate of \$23,400; and to Wong Shiu Wan, the widow of Tam Hau Chi alias Tam Chuk Wan alias Chow Po Yuen, second hand clothes dealer, who resided at 11, Cedar Street, second floor, the estate valued at \$16,100.

or more in the School examinations:—

TURKEY AND IRAQ AT VARIANCE

Oilfields Question

Jerusalem, Jan. 14. A breakdown appears to have occurred, according to the latest reports from Beirut, in the negotiations which were being conducted between Turkey, Iran, Afghanistan and Iraq for the purpose of forming a common front against any attempted influence on the part of foreign powers, especially Great Britain or the Soviet Union.

The differences between Turkey and Iraq, particularly regarding Mosul and its oilfields, are apparently unsurmountable. The Turkish delegation, at all events, has left Teheran, ostensibly to obtain new instructions from Ankara, but it is thought that most probably the delegation will not return for further negotiations which are due to be resumed shortly.

A Pastime For Parents

Rugby football has not hitherto enjoyed much success as a pastime for parents, who are generally supposed to be too comfortable to care for the rigours of what is regarded as a young man's game. Yet it must often have been regretted that the playing career of a Rugby footballer should be so comparatively short.

It is unusual for the player who leaves school at 18 still to be in the game ten years later. There are, of course, exceptions, men so hard and enthusiastic that they turn out for their club week after week, season after season, until they are into their thirties without suffering any ill consequences. But it is at about the age of 26 that the average player thinks the time has come for him to stop, not because he has had enough of the game but because the game begins to make too many demands on his time and strength.

He finds he must train a little harder if he is to keep fit, and he finds, too, that his muscles have lost some of their resilience. He is hurt more easily and takes longer to recover. The pace of the game has, in short, become too much for him. And so he gives it up, gets married, settles down, watches his old club play on a Saturday afternoon, and from time to time sighs for his lost youth.

Yet, men between the ages of 30 and 40, even though they may be bald, inclining to stoutness and to that air of gravity assumed by fathers of families, are still capable of playing more than a passable game for at least half an hour.

No doubt a full 80 minutes would leave most of them prostrate, but if they are able to play for 30 minutes there seems no reason why they and others even older but no less enthusiastic should not be encouraged to indulge their passion for their favourite sport within the limits of their endurance.

Not long ago it was reported from England that two teams of sexagenarians had played a short game of Association football.

Whether former Rugby players would care to make a fresh start so late in life is perhaps doubtful, but there are no doubt many in their forties who would willingly renew their youth again if only the pitch were a little smaller and the time of play a little shorter.

There seems to be an opportunity here for an enthusiastic organiser willing to grade retired players into categories—old, extra old, very old, like the wine merchant's price list, and arrange fixtures for sons and fathers.

PARIS CHAMBER IN SESSION

Survey Of Work By M. Herriot

Paris, Jan. 14.

At the beginning of the afternoon session of the Chamber today, the president of the Chamber, M. Herriot, held the customary inaugural speech in which he surveyed the work of the French parliament during the preceding legislative period and then made reference to international problems.

France, declared M. Herriot, had often been slandered. The fact was that she had done nothing but to extend her hand in true loyalty to her friends and also, still extended it to her former enemies in the world war.

France had repeatedly attempted to give other nations a final peace statute just as she once gave them the code of individual rights. She had set great hopes on the League of Nations which, despite many disappointments, she still trusted and hoped to perfect. France did not want to build up her own prosperity on the poverty of any other nation. She knew that the race for armaments was bringing all countries to the verge of a dangerous precipice and was giving rise to many dangers. France was ready, at any moment, to enter into reasonable agreements and she respected domestic political affairs of other people just as she was determined to defend her own. She would never fall in dispersing misunderstandings between the nations which were often more serious than a direct clash of interests.

It counted to the credit of the present Chamber, concluded Herriot, that it had unanimously approved the necessary financial sacrifices to be made for the country's defence. When there was the question of the defence of the mother country, there was only one France.

THIRD PLENARY SESSION

Canton, Jan. 15.

Owing to the great importance of the Third Plenary Session, which is to be held in Nanking on February 15 next, all provincial members have received notice to be present on the date fixed for the session.

Accordingly, General Yu Han-mow, Commander-in-Chief of the Fourth Route Army and Civil Governor Wang Mo-chung are making preparation for their departure.

It is also reported that Generals Li Tsung-jen, Pei Chung-hsi and Civil Governor Wong Kuk-cho of Kwangsi Province are getting ready to proceed to Nanking; but it is said that General Pei Chung-hsi will first fly to Fenghua to confer with Generalissimo Chiang Kai-shek before proceeding to Nanking to attend the Plenary Session.

VALENCIA MAKES DECISIONS

Valencia, Jan. 14.

The state of emergency in Spanish territory under the control of the Valencia Government was prolonged for another month by the Permanent Committee of the Cortes in the session today in the Civil Hall in Valencia, which is at present serving as Parliament Building.

It was further decided to immediately appoint substitutes to replace all absent deputies.

The evacuation of Madrid is proceeding slowly, according to news from the capital, and appeals to support the authorities in their difficult task will be broadcast to the population. Leading members of the defence committee will speak on the radio every day for this purpose.

SILVER PRICES TO FALL

Heavy Shipments To Bombay

London, Jan. 15.

London silver interests look for further fall in silver prices here after the departure on February 4 of the steamer to Bombay which is the latest shipment for arrival in India before the introduction of the Indian budget.

The opinion is gaining ground that India, which is at the moment the mainstay of the markets, is unlikely to keep up her volume of present imports which are specially large in view of rumours that the Indian Government is unlikely to apply an import tax on silver in order to reduce the budgetary shortfall; last week's steamer to Bombay carried silver for India to the extent of 5,000,000 ounces, leaving only 3,000,000 ounces in London, which is the smallest total for two or three years.

Furthermore, there are rumours from Washington that President Roosevelt is becoming tired of the United States silver programme in view of apparent impossibility to achieve the desired ratio of three-to-one, and the silver Senators are probably now content with the maintenance of price of the newly-minted domestic silver at 77.57 cents.

CHARLES MATTSON MURDER

Another Suspect Held For Examination

Tacoma, Jan. 14.

Sacramento, Cal., police have detained for questioning in connection with the murder of little Charles Mattson, a man whose description is said to tally with that in police notices posted throughout the country, circulated as part of the campaign to capture the Washington kidnapper.

The suspect has a scratched face.

It is stated that the man was once a patient of Dr. Mattson, father of the murdered boy, and that he had admitted to police that he had once escaped from a lunatic asylum.

Meanwhile, the discovery of a piece of lipstick on the running-board of an abandoned car, found near the scene of the finding of Charles naked body, has led to the belief that there may have been a woman in the case.

GOOD BATTING BY M.C.C.

Ward And Grimmett Punished

TWO CENTURY HITTERS

Hobart, Jan. 15.

In a three-day match begun here to-day against a combined Australian eleven, the M.C.C. batted first and carried their score of 92 for one wicket at lunch time to 392 for 8 at close of the day's play.

Barnett, Hardstaff, Allen and Wyatt all treated the bowling of Ward and Grimmett with scant respect. Barnett played a vigorous and stylish game, his driving to cover being his strong point. He scored 109, remaining 177 minutes at the wickets during which he hit three sixes and fourteen boundaries.

Hardstaff, who is at present 139 not out, including two sixes and eleven fours, gathered his runs by crisp well-timed drives and splendid hook strokes.

Allen was aggressive and cut and pulled Ward and Grimmett unmercifully. Wyatt scored 30 in 50 minutes including five boundaries. The Hardstaff-Allen partnership brought 124 runs in 71 minutes for the sixth wicket.

CORONATION CELEBRATIONS IN HONG KONG

(Continued from Page 1.)

THE AGENDA

The agenda was as follows:—
1. Discussion of the general form the celebrations will take.
2. Discussion as to the number of days on which celebrations will be held.
3. Estimation of the cost to Government of the celebrations.
4. Appointment of a Vice-Chairman and of Sub-Committees.
5. Any other business.

The Chairman told the meeting that His Excellency the Governor had given his opinion as to the form the official celebrations were to take, and that a working outline was as follows:—

ON CORONATION DAY
In the early morning: A Military Parade.

About 11 a.m.: Church Services.
About 2 p.m.: Chinese Processions.

In the evening: A Coronation Ball.

ON THE SECOND DAY

A Military Tattoo at night.
It was decided that the question of the number of days on which celebrations would be held would be decided when the Chinese Sub-Committee had met and were in a position to report what sort of Chinese celebration was desired and could be afforded.

The Reverend Halward, Colony Commissioner of Boy Scouts, stated that the Boy Scouts and Girl Guides were prepared to give a Pageant or Rally on the third day of the celebrations.

VOLUNTEERS FOR SPAIN

Italy Examining British Note

Rome, Jan. 14.

The new British Note regarding the question of foreign volunteers for Spain is now being carefully examined by the Italian Government, according to information from political quarters here, which expect that some time will pass before an answer will be given.

Discussing the various aspects of the problem in a leading article, the paper "Tribuna" declares that Italy and Germany are unable to disregard the fact that one of the belligerents in Spain wishes to change radically the existing international order.

The establishment of bolshevik rule in Spain would result in the bolshevization of France and a Soviet Russian ascendancy in the Mediterranean and in Spain says the paper, which points out that such a development would necessarily change the entire international political situation.

The joint German-Italian defence attitude, therefore, says the "Tribuna," is not only influenced by the Spanish conflict but also by the consideration of a bolshevik regime in Spain "which would disturb the entire European order."

PARIS DEBATE

Paris, Jan. 14.

After a short discussion the Chamber decided in the afternoon session today to begin a debate, on the Government's measure prohibiting the recruitment and departure of volunteers for Spain, to-morrow at 6 p.m.

Premier Blum stated that the Government would deal in detail with this question in the course of the debate and that under these circumstances an alternative project introduced by Deputy Desbons, calling for a prohibition to be put in force immediately without awaiting the decision of other Governments, could not be accepted.

The essence of the Government's measures is that the prohibition of volunteers will only come in force after an international agreement has been reached on this question, that is to say when the other Powers concerned also decide to take the necessary measures for preventing the influx of volunteers into Spain and agree to an international control.

China Station Ships To Participate In Mammoth Manoeuvres

Air Squadrons From India And Iraq

LONDON, JANUARY 15.

NAVAL AND MILITARY EXPERTS ARE VERY KEENLY ANTICIPATING THE FORTH-COMING MANOEUVRES IN SINGAPORE, WHICH IT IS UNDERSTOOD WILL TAKE PLACE IN THE MIDDLE OF FEBRUARY.

Although £2,000,000 has still to be spent on the mechanical equipment of the Naval Base, it is believed to be now in a condition at which its efficiency can be submitted to the severest test. Every available ship on the China Station will participate, probably including the Dorsetshire, which will then be proceeding homewards to be reconditioned similarly to the Cumberland. The Suffolk, recently from Chatham after the same reconditioning, sails for China on February 9 to replace the Dorsetshire.

The Air Force units taking part in the manoeuvres include two torpedo bomb squadrons and two flying boat squadrons already stationed in Singapore, two squadrons aboard the Hermes, one catapult flight divided between the Dorsetshire, Cumberland and Berwick, also squadrons from India and Iraq, the number of which is kept secret.

The enlargement of the Singapore Air Base contemplates expenditure of £1,604,000 of which only £47,000 has so far been spent, but the accommodation should be adequate for the purposes of the manoeuvres.

The garrison in Singapore consists of four heavy batteries of artillery, two anti-aircraft batteries, three companies of fortress engineers and two battalions of infantry.

The first and second Punjab and the Malayan Regiment will also participate.

ANGLO-IRISH RELATIONS

De Valera's Talks In London

London, Jan. 15.

It is learned that yesterday's surprise talks between Mr. Eamon de Valera and Mr. Malcolm MacDonald centred around the present outstanding points in political and economic issues between the two countries.

Although the conversations lasted nearly five hours, they could not be regarded officially as "helpful." They did not result in any formal decisions.

It is, however, gathered that the utmost cordiality prevailed, and it is hoped that a basis was made for further conversations, yielding more concrete results.

The "Irish Times" says the people of both countries are more than anxious to put an end to a condition of affairs which is both foolish and mischievous, and they insist that their representatives shall not abandon their efforts until a settlement is reached.

The journal remarks that the situation from the political viewpoint is more hopeful than it has ever been since the Flanna Fail came into power. What the Irish people demand is, firstly, a settlement of the economic war, and, thereafter, a permanent agreement with Britain which will safeguard their position as citizens of the Commonwealth.

AMERICA'S NEW BATTLESHIPS

Washington, Jan. 15.

The two 35,000-ton battleships to be laid down by the United States Navy on June 1 will cost \$10,000,000 each. They will have a speed of 26 to 27 knots against the 30 knots of the new British and other battleships.

American experts are deciding to sacrifice speed to superior armament and striking power. Each ship will probably have twelve 14-inch guns. The final decision depends on Japan adhering to the London treaty of 1936.

If Japan does not adhere, the Americans will probably adopt 16-inch guns.

The armament of British battleships for which tenders have lately been invited might also be similarly increased.

SIAN UNREST SOLUTION

Shanghai Journal's Opinion

Shanghai, Jan. 13.

A fundamental solution of the Sianfu imbroglio demands enlargement of opportunities for popular co-operation on the affairs of the nation, declares the "Ta Kung Pao" in a significant editorial this morning. It adds that this goal is only achievable by laying the foundation of constitutional government which will be the task at the next plenary session of the Central Executive Committee.

The journal advocates the early convening of the National People's Congress, but says that fresh elections to the body should be held as the previous ones are defective.

It will be recalled that the meeting of congress scheduled for last year to inaugurate constitutional government was indefinitely postponed.

The absence of constitutional means to express views was given by the Sianfu rebels as the reason for use of force in order to draw attention to their desire for a change of national policy as regards Japan and the Communists.

FOREIGNERS AT SIANFU

Grave Difficulty In Evacuation

Shanghai, Jan. 15.

Anxiety over the safety of foreigners at Sianfu has been increased following a semi-official admission of the Government's inability to evacuate them by air, owing to the danger of the aeroplanes being detained.

It is pointed out that many Government machines are already in the hands of the Sianfu malcontents.

Special assurances of immunity had to be obtained from General Yang Hu-chen before the Eurasia machines sent from Nanking were able to fly to Sianfu with General Li Chun-kan, General Yang's emissary. This plane was not permitted to evacuate foreigners, who it is believed, are being retained as hostages in order to prevent aerial bombardment of the city.

The Japanese authorities claim that under the so-called Ho-Umezu agreement of 1935 the Chinese agreed to submit appointments and dismissals of high officials in North China for Japanese approval.

SPORT FIXTURES FOR WEEK-END

(Continued from Page 1)

Coming to Hong Kong late in 1930, Frank Pereira won Interport recognition in 1931 and it was due mainly to his efforts that the Indian Recreation Club won the First Division championship, for the first time in the history of the League, in 1930-31 and again the following year.

One of the fastest bowlers to have played in Colony cricket, Pereira is also a fearless hitter and he has been known to pull his side out of a tight corner, more than once, with the bat. Of a quiet and unassuming nature, Frank has won for himself a host of friends by whom he will be greatly missed. Let us hope that he will be back here again, within a very short time, fully restored to health.

The League Games

Turning now to the League matches, the best one appears to be that between the Royal Navy and the Indian Recreation Club at King's Park. The I.R.C. will be without A.S. Sufiad who is again kept out of the game with ankle trouble and it will be interesting to watch who will open the innings with A.R. Abbas. I rather fancy Y. el Arcuill will be sent out though I would very much like to see A. H. Madar opening for the Indians again. He did so some years ago with marked success.

If the Indians win the toss and send the Navy in to bat they will probably win, otherwise a draw might be the result. At Pokfulam the Army will perhaps prove too strong for the University and as Lieut. Pritchard is reported to be batting very well at the moment, I am looking to a big score from him. At Happy Valley the Civil Service will be at home to the Hong Kong Cricket Club but I am sure that even their most ardent supporter cannot hope for a win for the Civil Servants, though they might be able to force a draw. Alec Pearce has been showing very good form in the recent Club matches and another big score should come from him this afternoon, while J.E. Richardson and A.E. Perry not forgetting W.H. Colledge, should be the chief run-batters for the home team. It has often puzzled me why H.F. Westlake is not playing for C.S.C.C. seniors, for apart from being a very useful medium-to-fast bowler, he is just the type of hitter that they have been looking for since the days of "Scotty" Sutherland. Kowloon, the champions, visit Craigengower, and should come away with the points.

The Juniors

The Junior card is a very interesting one and the best game here should be that between Kowloon and Craigengower at King's Park. The odds are slightly in favour of the home team though it will not do for them to let B.R. Irane get going with the ball for the visitors.

The Indians entertain the Navy and a draw is the most likely result while of the other games, the Club, Army "C" and Police should beat Civil Service, University and Army "A" respectively.

Hockey

(BY R.H.B.)

The Seven-A-Side Ladies Hockey Tournament last Saturday, which was deservedly won by the Hong Kong Ladies Hockey Club, after a thrilling final round against the Saints' Ladies, provided material for the selectors entrusted with the choosing of the team to represent Hong Kong against the Shanghai Ladies next month. For one thing, Mrs. Donald more than established her claim as leader of the attack. She gave a sparkling exhibition and in the course of the afternoon's tournament annexed no less than six goals for her side.

After a lapse of nearly a fortnight, the Caer Clark Cup competition will be resumed this afternoon. There are two matches on the card. The Y.M.C.A. Ladies, who are making a very keen bid for championship honours this season, will be opposed to the Recrelo Ladies and should account for a comfortable win. The Saints will meet the C.B.A. Ladies, champions, and a rather even game should ensue with the balance slightly in favour of the former team. The C.B.A. side, sadly missing the services of such stalwarts as Mrs. Margaret White, Miss M. Bryson and Miss Marie Smith, all Interports, have no chance of retaining their title. A study of the

League tables reveals that they have played five matches and have only four points, having lost twice and drawn twice. The Saints have five points for the same number of games. The "Y" Ladies have not yet lost a match while the H.K. Ladies have suffered defeat once. Recrelo have played six matches and have yet to record a win.

Mrs. M. Read, of the Y.M.C.A. Ladies, heads the list of goal scorers in the Caer Clark Cup League with six to her credit and it is probable that she will increase her total this afternoon. Miss Marie Smith and Mrs. Donald have scored five goals each to date.

In the Brawn Cup fixtures this afternoon, the Diocesan Girls' School, who possess in Miss Helen Bockler one of the most promising centre-forwards in local ladies hockey, should account for the C.B.A. Ladies, who although they have not yet recorded a victory are making definite steps towards improvement. I am informed that Miss Peggy Springer, who played for the C.B.A. Juniors two weeks ago for the first time and registered a goal against the Y. Ladies, will be tried out in the senior team this afternoon. She is a useful forward and it will be interesting to watch her performance. In the other match the Royal Welch Fusiliers Ladies should take both points from the Y. Ladies.

The telegram from Shanghai published the other day regarding the proposed visit of the Shanghai Ladies was most encouraging though it hinted at financial difficulties. One feels sure, however, that any difficulty that may arise will be surmounted and when the Empress of Asia arrives on February 11 from the North she will have on board the Shanghai Ladies in quest of the White Shield. No definite programme of matches has been announced though arrangements are well under way, I understand.

Congratulations to Miss C. Osmund, the well-known Club de Recrelo hockey player, on the occasion of her marriage to Mr. Mariano Silva, another popular member of the Portuguese Club. The wedding will be solemnised at the Rosary Church on Monday morning. Her absence from the Recrelo Ladies team will be a severe blow as she has been a regular player for the past eight years.

There can be little excuse for the severe trouncing that the Nomads sustained at the hands of the C. B. A. in the "A" Division of the Mamak Hockey Tournament last Sunday when they lost by six goals to one. In the first place, two members of the losing team, R.C. Reed and L. Souza, failed to put in an appearance and the inevitable consequence of this was that the Nomads had to play throughout with ten men. L. Osmund being brought into the team at right wing at the eleventh hour. Misfortune befell the Nomads when F.G. Barros, who had been playing a steady game at left full back, received a nasty knock on the knee and the second half found him between the sticks. H. Soares replacing Barros in the defence. Barros acquitted himself admirably and saved a number of shots.

The visit of the Waseda University team has occupied much attention during the past week. In their first five matches they met with successive defeats. The heaviest defeat was inflicted by the Navy who won 7-1. Willy Reed, the finest centre-half seen here for many seasons, was a notable absentee from the Colony team that emerged winners against the Japanese side by the odd goal in three. The main weakness in the Waseda team, it appears to me, lies in their half-back line. They hesitate in their tackling and seldom pass the ball out to their wingers. Instead of tackling straightaway the half-backs are inclined too much to run down towards their own citadel with the opposing forwards and by this means lose much valuable ground.

Next month will see the annual Interport match played between Macao and Hong Kong. Last year Macao played at King's Park and won. This year the Hong Kong players will make the trip to the Portuguese Colony. I am informed that "Geof." Lammer will be skipper of the Macao team.

Soccer

(BY JAY MARTIN)

The results last week's football provided soccer fans with none too little surprises. The Police showed an unexpected return to form and Fusiliers must have considered themselves lucky in being able to share points with our "guardians of the law." Through this draw South China "A" have been given a better chance to get to the top following their defeat of the East Lancs, by five goals to two. The latter were paid a compliment by the Chinese side who fielded their best team but it was unfortunate for the soldiers to lose their last game in Hong Kong.

Recrelo was another team that showed strengthening and they were lucky in downing Kowloon. The latter had the better of the game throughout but they were not fated to win that day. Still another reverse was experienced by the defeat of St. Joseph's by the Athletics. The latter have not been playing too well during the season but their win was a credit to their performance.

(Continued on Back Page.)

A BOXER'S EARNINGS

Though Joe Louis was beaten by Max Schmeling in his most important fight of the year, he has won the financial championship of the year. Louis earned \$30,386 for fighting six men—most of them second-raters.

All the money is not clear profit. Louis's manager receives about one-third. There are expenses, of course, but the training camps have been profitable and exhibition money is not included in the total.

Louis refuses to lend his name to advertising unless he believes in the product. He has declined to appear in cigar and cigarette advertising because he does not smoke.

RIFLE SHOOT

A Spoon and Practice Shoot will be held this afternoon at Stonecutters, by kind permission of the Naval Authorities, commencing at 2.00 p.m. sharp.

A launch will leave Queen's Pier at 1.15 p.m. calling at Kowloon (1.25) and Shamshuipo (1.40) en route, and will return on the completion of the shoot.

PARTY FOR WASEDA HOCKEY TEAM

Arrangements are in hand for a "farewell party" for the members of the visiting Waseda University hockey team, to be held under the auspices of the Hong Kong Hockey Association on Tuesday, January 19.

The members of the Waseda team will go on board the s.s.

MAGNESIUM ALLOY IN INDUSTRY

Lancashire Production

Magnesium is the latest metal to be brought into commercial use. In various alloy forms it is being extensively employed when a reduction of weight is sought by aircraft and automobile machine and engineering concerns. A group of unwrought and partly wrought magnesium alloys 40 per cent lighter than aluminium is sold under the registered trade name of elektron. The special technique for its production has been built on supplies of the metal from Germany, as, until lately, the total consumption in this country did not warrant the large capital expenditure required for production in this country.

Recently a large new works at Clifton Junction, near Manchester, produced its first batch of raw magnesium after nine months of preparatory building and installation. The process is that of fusion electrolysis, but the fundamental formulae are preserved as a trade secret. Magnesium is essential to the work, but, apart from the company's present process, a new method is being examined whereby the deposits of dolomite available in this country can be substituted for the non-indigenous magnesite.

HELP IN AIRCRAFT DESIGN

The supply of this new metal to aircraft manufacturers, makers of engines and motors of all kinds, textile and other concerns is designed to resolve the problems raised by a constant demand for higher power-to-weight ratios. It is not intended to supplant aluminium wholly, because the two materials are more complementary than competitive.

Elektron alloys are not physically able to compete with the domestic dominion of aluminium; they have no place in the kitchen. Their function is the saving of unsprung weight on a vehicle or in the air, and in this connection it may be noted that the Comet aeroplanes which took part in the race to Australia had their range increased by 74 per cent, because of additional supplies of oil and petrol which could be taken on board after elektron castings had been incorporated.

USED IN GERMAN SHELLS

The history of magnesium is interesting. It was first isolated as a metal in 1808 by Sir Humphry Davy, the designer of the safety lamp. Nothing was done on a big scale until the electrolytic process was devised in Germany in 1900. Even then production was not developed until the war years, when the Germans were short of aluminium, brass, and copper and developed the use of magnesium for the manufacture of armaments. Allied soldiers had their first introduction to it when it was shot at them as the percussion striker in the head of the instantaneous fuse on the shell from the 77mm field-gun.

A dozen years ago the process rights for the British Empire were obtained by Major C. J. F. Ball, of F. A. Hughes & Co., Ltd., of London. This firm, in conjunction with licensees, slowly introduced the material to consumers. In time the erection of works for internal production was decided upon, and a site of 30 acres at Clifton Junction was taken, one-third of which is already utilized. Five hundred men are employed on the constructional and process work, and the number will grow as the production increases. German consultants are advising. The firm operating at Clifton Junction is Magnesium Elektron, Ltd., associated with Messrs. F. A. Hughes & Co., Ltd. It has a capital of £400,000, and one of the partners in the venture is Imperial Chemical Industries. Major Ball is the chairman.

FOREIGN TRADE OF HOLLAND

Amsterdam, Jan 14. Dutch foreign trade showed an increase during 1936 when imports were 1,017 and exports 745 million guilders, as against 936 and 675 million guilders respectively in the previous year. The central bureau for statistics, which announces these figures, adds that in December 1936, imports rose from 101 million guilders, in November to 114 million guilders, while the exports increased from 77 to 79 millions.

CHINA'S DRUG ADDICTS

Flock To The Clinics!

Nanking, Alarmed by the prospect of facing capital punishment, numerous opium addicts at the Capital have applied to the opium clinics for treatment. As the clinics are already full, many of the addicts, unable to obtain treatment, are being temporarily accommodated at the Metropolitan Police Headquarters. It will be noted that, according to a warning issued by the General Association of Opium-Suppression Commissioners (Chin-Yen Tsung-Hui), any person found guilty of smoking or dealing in opium and narcotics on and after New Year's Day will be liable to the death penalty.

SPANISH GOLD RESERVE

Valencia Government Protest

London, Jan. 14. The Spanish Ambassador in London handed a Note to the Foreign Office to-day in which the Valencia government protests against the question of the Spanish gold reserve being dealt with by the Non-Intervention Committee. It will be recalled that the gold reserves of the Bank of Spain have been deposited partly in France and partly in the Soviet Union as security for purchases of arms.

In the course of the past month, the local authorities have been engaged in a large-scale publicity campaign against the opium evil.

NEWS FROM THE WATERFRONT

Freight And Asiatic
Passengers Returns

(BY LONGSHOREMAN.)

The freight returns, received from the Harbour Office during the 24 hours ended at 9 a.m. yesterday, showed a fairly high tonnage movement, a good proportion being contributed by British ships.

The total tonnage of general cargo carried by vessels to the Colony was 31,215 tons with British steamers carrying 13,394 tons.

Through cargo for ports beyond the Colony amounted to 21,478 tons, of which 7,308 tons were carried by British steamers.

Asiatic deck passengers entering into the Colony during the 24 hours ended at 9 a.m. yesterday were 758, of which 452 were from British steamers.

There were altogether twenty-one arrivals, of which nine were of British registry, the remainder being of other nationalities, while of the 12 departures, three were British ships. Particulars as follows:—

Nationality	Ships	Tonnage
British	9	20,702
Norwegian	2	3,850
German	2	14,584
Japanese	5	7,515
Chinese	3	6,032
Total	21	52,693
